

Time for a revolution. O₂ Unite.

No more individual tariffs. Just one tailor-made offer for your whole company.

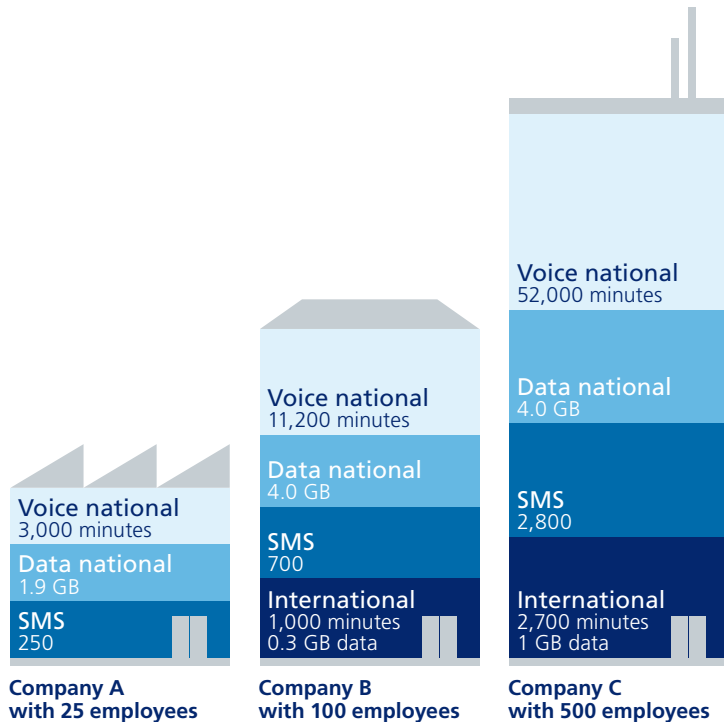

O₂ Business – Mehr Unternehmen.

One for all – O₂ Unite.

One offer, as individual as your company. One price according to your usage. Flexible voice, SMS and data contingents suited to your needs. One tariff model, intelligent like no other – **O₂ Unite.**

**3-month
free trial***

Employees share voice and data pools:

(Example pools)

How to benefit from your individual O₂ Unite offer:

- Arrange an appointment with your O₂ sales consultant
- Identify the pool sizes your employees need
- Your O₂ sales consultant will send you an offer tailored to your needs
- All employees share the same pools
- Only pay for your actual usage

An overview of the advantages of O₂ Unite for your business:

Simple.

No more complicated individual tariffs. Less administrative effort. Just one tailor-made offer.

Flexible.

Your company changes. Employees come and go. It's easy to add or cancel SIM cards.

Fair.

Only pay for your actual usage. Whatever is left at the end of the month will roll over to the next months.

Clear.

Complete cost control due to a fixed monthly tariff. Simple controlling of your overall pool usage thanks to the O₂ Unite monitoring tool.

*With O₂ Unite all company employees share pools, specified by the company for national and international voice, SMS and data. Upon starting the Try&Buy phase, the customer signs an agreement for a minimum term of 27 months. During the first three months (Try&Buy), the basic monthly charges of the booked units for national minute, data and SMS pools will be discounted by 100 %. No fees will be charged for exceeding the monthly allowance of this pool. The 100 % Try&Buy discount only applies to the national pool contingents portfolio initially selected. The pool volume for all national and international contingents may be changed at any time during the Try&Buy phase. During the Try&Buy phase, any spare capacities of the national Try&Buy contingents will no longer be available the following month. Spare capacities from the national pools will only be transferred over to the following month for use once the Try&Buy phase is over. Before the end of the Try&Buy phase, new customers may switch to the O₂ Business tariff portfolio with a minimum term of 24 months at the respective current business customer terms and conditions. Switching to a subsidised hardware tariff in the O₂ Business portfolio is not permitted. A switchover is only possible if this involves all the customer's SIM cards. The pool contingents expire automatically upon switching over. A cancellation of O₂ Unite during the Try&Buy phase is not possible.
